AMENDMENT FFY 2025-2028 STATE TRANSPORTATION IMPROVEMENT PROGRAM (TIP/STIP): FHWA PROGRAMS

The Connecticut Department of Transportation is requesting the following amendments to the FFY 2025-2028 State Transportation Improvement Program (STIP/TIP).

Below are summaries of each project. The proposed action(s), funding sources, air quality code, phase, year and cost allocation for each project are detailed in the attached report.

0015-0391: Park Avenue South Streetscape, Bridgeport: This project was selected for funding through the Transportation Alternatives Program as a result of a 2024 solicitation of MPOs in the Bridgeport-Stamford TMA. The MPO approved the prioritization of TA projects programmed for 2026-2030 at the May 2024 meeting. This project includes concrete sidewalks, raised bike lanes, pedestrian ramps, crosswalks, and pedestrian crossing warning devices along Park Avenue, from Railroad Avenue to State Street. This project is the second phase of a larger concept for the corridor. The first phase is from Waldemere Avenue north to Railroad Avenue and was approved at the March 2025 meeting of the MPO.

Linking Performance to Investment: States and MPOs are required to establish performance targets and utilize a performance-based approach to transportation decision-making¹. The projects above are anticipated to support achievement of targets for the performance measures, as detailed in the attached report.

MPO Action: The proposed amendments are consistent with the long-range transportation plans of the Greater Bridgeport and Valley Metropolitan Planning Organization and conform to the air quality objectives. The proposed schedule, programming and funding adjustments will maintain a financially constrained TIP/STIP. It is recommended that the MPO endorse the proposed amendments to the FFY 2025-2028 TIP/STIP as described above and listed in the attached tables.
